Dear Mr Ahktar,

Cab Safe Security Screens - approval

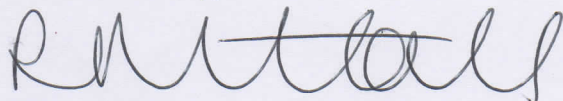

Thank you for attending the Licensing Committee meeting in Leicester yesterday, and for bringing a vehicle to demonstrate your product.

I am pleased to confirm that the Committee decided to approve the installation of your security screens in private hire vehicles licensed by Leicester City Council. The Council will not provide any funding for this, and any screens installed will be the subject of a private agreement between the vehicle owner and your company. However, I would be obliged if we could be informed of any vehicles that do have a screen installed.

Members of the Committee were also asked to consider whether the fitting of a security screen should prevent the use of the front passenger seat. The Committee decided that this should be left to the driver's discretion.

I hope that this information is clear but if you would like further clarification please let me know.

Yours faithfully,

Rachel Hall
Licensing Team Manager
